

Amy E. Thompson, Gregory Hughes, Andrei S. Batsanov, Martin R. Bryce,* Paul R. Pary, and Brian Tarbit. Palladium-Catalyzed Cross-Coupling Reactions of Pyridylboronic Acids with Heteroaryl Halides Bearing a Primary Amine Group: Synthesis of Highly Substituted Bipyridines and Pyrazinopyridines.

Pages 388–390. Since publication of this Note, the references cited below describing efficient cross-couplings of 4-methoxyphenylboronic acid with amino-substituted bromopyridine derivatives under Suzuki conditions have been brought to the authors' attention. We thank Professor F. Bracher for this information.
