

## Additions and Corrections

---

2009, Volume 52

**Palmarisa Franchetti, Loredana Cappellacci, Patrizia Vita, Riccardo Petrelli, Antonio Lavecchia, Sonja Kachler, Karl-Norbert Klotz, Ida Marabese, Livio Luongo, Sabatino Maione, and Mario Grifantini\*:** *N*<sup>6</sup>-Cycloalkyl- and *N*<sup>6</sup>-Bicycloalkyl-*C5'*(*C2'*)-modified Adenosine Derivatives as High-Affinity and Selective Agonists at the Human A<sub>1</sub> Adenosine Receptor with Antinociceptive Effects in Mice.

Page 2397. For the rightmost chemical structure in Table 1, the inclusion of **21** and **22** in the listing is incorrect; those compounds should be **23** and **24**, respectively. Also, footnote b of Table 1, "Displacement of [<sup>3</sup>H]NECA binding in CHO cells stably transfected with human recombinant A<sub>1</sub> or A<sub>3</sub> adenosine receptors" should be "Displacement of [<sup>3</sup>H]NECA or [<sup>3</sup>H]HEMADO in CHO cells stably transfected with human recombinant A<sub>2A</sub> and A<sub>3</sub> adenosine receptors, respectively".
