

Correction to Extrapolation to the Complete Basis Set Limit without Counterpoise. The Pair Potential of Helium Revisited

[*The Journal of Physical Chemistry A* **2010**, *114*, 8505–8516 DOI: 10.1021/jp908835v]. A. J. C. Varandas

Equation 16 of the above paper is misprinted, it should read $C_n/C_6 = \kappa_n R_0^{a(n-6)/2}$. The numerical values of the following parameters should also read $\kappa_{10} = 1.31$ and $a = 1.54$, as in the original work.¹ All results are correct as reported.
