

Rh(I)-Catalyzed Intramolecular [3 + 2] Cycloaddition of *trans*-Vinylcyclopropane-enes [*J. Am. Chem. Soc.* **2008**, *130*, 7178–7179]. Lei Jiao, Siyu Ye, and Zhi-Xiang Yu*

In the PDF Supporting Information, the reaction times and temperatures for the syntheses of **7**, **13**, and **21** are not correct. The correct reaction times and temperatures for these syntheses are those given in Table 2 and Scheme 2 of the Communication (p 7179). The diastereomeric ratio of cycloadduct **19** was determined on the basis of integration of the ¹H NMR spectrum of the product mixture.
