Martin E. Kuehne* and Yun-Long Li

A Biomimetic Synthesis of the Pauciflorine A and B Skeleton.

Page 1749. We inadvertantly overlooked the recent report of an analogous speculative biogenetic derivation of the pauciflorine skeleton, with a projected very different synthesis of a hexacyclic carbinolamine precursor analogous to amine **6**, for the key fragmentation step. Magnus, P.; Gazzard, L.; Hobson, L.; Payne, A. H.; Lynch, V. *Tetrahedron Lett.* **1999**, 40, 5135. We thank Professor Magnus for drawing our attention to his work.
