

Additions and Corrections

Volume 5, 2003

Yutaka Matsuo, Kazukuni Tahara, and Eiichi Nakamura*

Theoretical Studies on Structures and Aromaticity of Finite-Length Armchair Carbon Nanotubes.

Page 3184. There was an error (coordinates of $C_{90}H_{20}$) in the Supporting Information as originally published. The corrected Supporting Information was posted to the Web November 14, 2003.

Chao-Quin Li and Min Shi*

Reaction of Arylaldehydes and N-Sulfonylated Imines with Dimethyl Acetylenedicarboxylate Catalyzed by Nitrogen and Phosphine Lewis Bases.

Page 4273. Immediately after the publication of our paper, we realized that Nair and co-workers had already assigned the correct structures for their products in the reaction of arylaldehydes with DMAD (*Org. Lett.* **2002**, 4, 2807) in an Addition/Correction to their paper (*Org. Lett.* **2001**, 3, 3495). It is very unfortunate that we missed their correction. We sincerely regret our oversight and the consequent inconvenience to the Nair group.
