Glutathionyl Transferase-Catalyzed Addition of Glutathione to COMC: A New Hypothesis for Antitumor Activity.

Due to a production error, certain μM units of concentration appeared as mM units of concentration in the version published on the Web 3/3/02 (ASAP) and in the April 4 issue (Vol. 4, No. 7, pp 1209–1212).

The errors appeared on page 1209 (column 2, lines 1 and 2), page 1210 (column 1, last line; column 2, line 2), page 1211 (column 2, line 13), and page 1212 (column 1, lines 18 and 19; column 2, lines 2 and 4).

The correct electronic version of the paper was replaced on the Web 4/23/02.
