

## Additions and Corrections

---

Volume 6, 2004

**Fernano Formaggio,\* Marco Crisma, Laura Scipionato,  
Sabrina Antonello, Flavio Maran, and Claudio Toniolo**

Synthesis and Characterization of a Series of Homo-  
oligopeptide Peroxyesters.

Pages 2755 and 2756. All instances of “(RS)”, originally meant to indicate a racemate, should be replaced by the clearer prefix “*rac*” because, in this work, the racemic “*trans*-1,2-Chx” residue was used. However, in the case of “*cis*-1,4-Chx”, “(RS)” should be simply removed, as this amino acid is achiral.

Supporting Information. Corrected Supporting Information has also been posted.
