

Martin Avalos, Reyes Babiano, Noemi Cabello, Pedro Cintas,* Michael B. Hursthouse, José L. Jiménez, Mark E. Light, and Juan C. Palacios. Thermal and Sonochemical Studies on the Diels–Alder Cycloadditions of Masked *o*-Benzoquinones with Furans: New Insights into the Reaction Mechanism.

Page 7193. At the time of manuscript submission, an additional address for Noemi Cabello was inadvertently omitted. The second address follows: Laboratoire de Chimie Moléculaire et Environnement, ESIGEC, Université de Savoie, 73376 Le Bourget du Lac Cedex, France.

Page 7201 (General Methods) and page 7203 (Acknowledgments). Again, the name of the French laboratory was not explicitly mentioned. The expression “ESIGEC, Université de Savoie” should read as follows: “Laboratoire de Chimie Moléculaire et Environnement, ESIGEC, Université de Savoie”. We are deeply indebted to our French colleagues for their valuable collaboration and apologize for this oversight.

Page 7203. **Evaluation of MOB Dimerization by UV/Vis Spectroscopy.** The sentence “UV spectra were recorded using q cuvettes with a 10-mm light path” should read: “UV spectra were recorded using quartz cuvettes with a 10-mm light path”.
