2007, Volume 111C

**Junjiang Zhu\*, Xiangguang Yang\*, Xuelian Xu, and Kemei Wei:** Active Site Structure of NO Decomposition on Perovskite(-like) Oxides: An Investigation from Experiment and Density Functional Theory

Page 1488. Figure 1 should be corrected as below.

**Figure 1.** Crystal structure of  $A_2BO_4$  compounds with different phases ( $T'$ ,  $T^*$ , and  $T$ ). In the  $T$  phase, the possible active site for NO decomposition proposed previously and presently was shown, described as routes 'a' and 'b', respectively.
