

Additions and Corrections

Vol. 2, 2000

Min Shi,* Jian-Kang Jiang, and Yan-Shu Feng

Titanium(IV) Chloride and the Amine-Promoted Baylis–Hillman Reaction.

Page 2398. The authors misread the relative configuration of **1a** as the *anti* form from the X-ray crystal structure. It should be the *syn* form. The stereochemistry of **1a** is the same as that reported by Kataoka in *Tetrahedron* **2000**, 56, 4725.
