

Correction to Photophysical and Lasing Properties of Rhodamine 6G Confined in Polymeric Nanoparticles [*The Journal of Physical Chemistry C* 2011, 115, 3926–3933 DOI: 10.1021/jp1108575]. Virginia Martín, Jorge Bañuelos, Eduardo Enciso,* Íñigo López Arbeloa, Ángel Costela, and Inmaculada García-Moreno

A figure was incorrectly labeled as Figure 2. The correct Figure 2 is shown below.

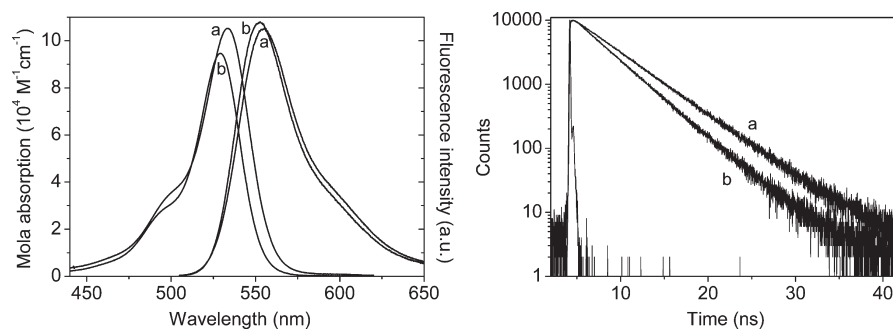

Figure 2. Absorption and fluorescence spectra (left), and fluorescence decay curves (right) of (a) Rh6G in aqueous suspensions (Sample D1) and (b) the mimetic monomer mixture (Rh6G concentration: 2×10^{-6} M).
