A Novel Synthesis of 4*H*-Chromen-4-ones via Intramolecular Wittig Reaction.

Page 3821. In the Supporting Information of our paper “A Novel Synthesis of 4*H*-Chromen-4-ones via Intramolecular Wittig Reaction”, the following correction should be noted:

For compounds **8a–8l**, in the ¹HNMR spectroscopic data, the multiplet shown for alkene hydrogen α to carbonyl in the range at δ 6.74–7.05 should read as singlet at δ 6.16.
