Page 7772. Figure 7 was the same as Figure 5 and should be replaced with below. Since the error was due to an editorial

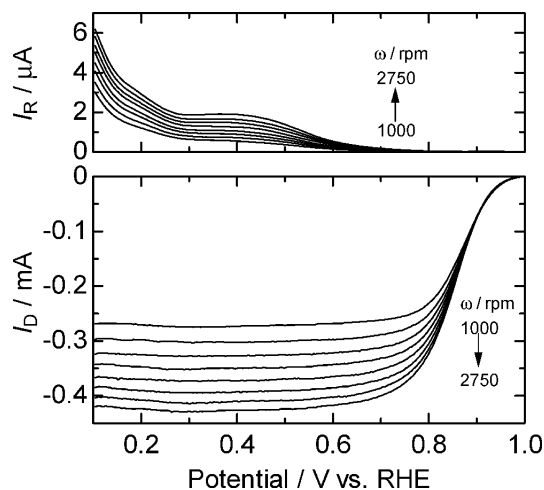

Figure 7. Hydrodynamic voltammograms for the ORR at SPI-8-Pt/CB (0.05 μm SPI-8 layer) electrode in air-saturated 0.1 M HClO_4 solution at 25 $^\circ\text{C}$. The potential sweep rate was 5 mV s^{-1} ; the electrode area was 0.283 cm^2 .

mistake, this correction does not change any of the conclusions or claims made in the original paper.
