

Correction to Synthetic Studies on Taxol: Highly Stereoselective Construction of the Taxol C-Ring via S_N2' Reduction of an Allylic Phosphonium Salt

Masayuki Utsugi, Masayuki Miyano, and Masahisa Nakada*

Org. Lett. **2006**, 8(14), 2973–2976. DOI: 10.1021/ol0608606

S Supporting Information

In the Supporting Information of this paper, the ^1H NMR spectrum for compound **15** was found to have been edited to remove solvents and impurities. The original FID was located, and the spectrum was reprocessed and has been replaced for the above compound in the revised Supporting Information submitted with this correction. The spectrum editing did not affect any of the conclusions of the published paper. The yield was found to be correct.
