

Additions and Corrections

Volume 5, 2003

Wei-Dong Z. Li* and Yong-Qiang Wang

A Novel and Efficient Total Synthesis of Cephalotaxine.

Page 2932, Scheme 1. The stereostructures of intermediates **2**, **11**, and **12** were incorrectly assigned. The corrected stereostructures of intermediary compounds **2**, **11**, and **12** in Scheme 1 and throughout this publication should read as follows:

Accordingly, chemical structure of the pentacyclic ketone intermediate (middle) in the Graphic Abstract of page 2931 should be replaced by the above corrected structure **2**.

The same structural corrections for intermediary compounds **2**, **11**, and **12** should be applied to pages S8–S10 of the Supporting Information.
