Vol. 5, 2003

**T. V. V. Ramakrishna and Paul R. Sharp\***

Naphthalenes, Isoquinolines, and a Benzazocine from Zirconocene–Copper-Mediated Coupling of Benzocyclobutadiene with Nitriles and Alkynes.

Pages 877 and 878. In line 4 of the Abstract, benzazocine is referred to as 2-benzazocine; it should be 3-benzazocine. The structure of the benzazocine in the Abstract and Scheme 2 should be as shown below.
