Figure 2 in the original article was incorrectly reproduced, and it shows erroneous data points for “Growth per cycle/Å” and “Li/(Li+Mn) in film” in the figure panel (a). The corrected figure is given here as Figure 1.

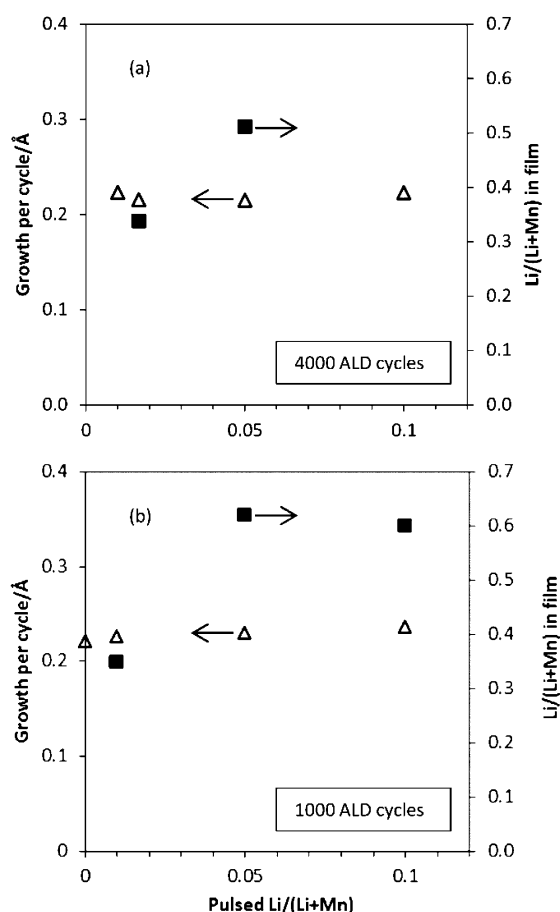

Figure 1. Growth per cycle and relative lithium composition for $\text{Li}_x\text{Mn}_y\text{O}_z$ films deposited with Li(thd) as the lithium precursor for films with (a) 4000 and (b) 1000 deposition cycles.
