Corrections to Large-Scale Application of High-Throughput Molecular Mechanics with Poisson–Boltzmann Surface Area for Routine Physics-Based Scoring of Protein–Ligand Complexes [*J. Med. Chem.* **2009**, 52, 3159. DOI: 10.1021/jm801444x]. Scott P. Brown and Steven W. Muchmore*

Page 3164. Updated Supporting Information files were posted on the Web on June 5, 2009. Details of the changes made to each Supporting Information file are listed below.

For the pdf file, explicit reference to the submitted Supporting Information file names was removed and a statement was added indicating that MMPBSA scores are now also included in the text files.

For the three text files, the target identification was inputted in the header and values for MMPBSA predicted pK_i values were added.

For the three PDB files, target identification was inputted in the header.
