

## Additions and Corrections

Volume 5, 2003

### Bengu Sezen and Dalibor Sames\*

Cobalt-Catalyzed Arylation of Azole Heteroarenes via Direct C–H Bond Functionalization.

Page 3607. After the departure of the first author, the laboratory of the corresponding author (D. Sames) has not been able to reproduce the key results in this publication. Accordingly, the corresponding author withdraws this paper, and deeply regrets that the chemical community was misled by this publication.

Volume 7, 2005

### Juan Durán, Moisés Gulías, Luis Castedo, and José L. Mascareñas\*

Ligand-Induced Acceleration of the Intramolecular [3 + 2] Cycloaddition between Alkynes and Alkylidenecyclopropanes.

Page 5693. The correct name for ligand **L**<sup>6</sup> is tris(2,4-di-*tert*-butylphenyl)phosphite and the correct structure (Abstract and Figure 1) is the following:
