

## ADDITIONS AND CORRECTIONS

---

2008, Volume 112C

**J. Lao, J.-M. Nedelec, and E. Jallot\*:** New Insights in the Physico-Chemistry at the Interface between Sol–Gel Derived Bioactive Glasses and Biological Medium: A PIXE-RBS Study

Pages 9418–9427. A systematic error in data processing occurred in the calculation of the (Ca+Mg)/P atomic ratios, which are given in the Results section of the article (pp 9423–9424). As a consequence, all the values concerning the (Ca+Mg)/P atomic ratios are false; they shall be multiplied by a 1.628 correction factor. This correction should be applied to the y-axis scale of Figure 7 also.
