

Additions and Corrections

Volume 8, 2006

Brian T. Mayers and Albert J. Fry*

Construction of Electrocatalytic Electrodes Bearing the Triphenylamine Nucleus Covalently Bound to Carbon. A Halogen Dance in Protonated Aminotriphenylamines.

Page 412. In the second equation of Scheme 2, the structure following the first arrow does not contain bromine.

Page 414. Additional experimental details describing the electrochemical procedures have been added to the original Supporting Information file.
